

2017-2018 ANNUAL REPORT

MEALS on WHEELS
MERCER COUNTY

TOGETHER, WE CAN DELIVER.

FROM THE CEO

As each generation of people lives longer than the one before it, the need for services for older adults expands. This past year saw the release of statistics showing a disturbing trend in the aging population as it relates to food insecurity.

The elder population, at 46 million in 2016, is expected to be at 55 million by the year 2020 - just around the corner. With 10,000 Americans turning 65 every day, the size of the senior population is projected to more than double to over 98 million by 2060. Given that staggering statistic, the opportunities that come with the “graying” of America are endless. However, at the same time, the survival of our elders is being threatened on a daily basis.

Individuals ages 65 and older had the unique distinction of being the only population segment to experience a significant increase in the number of individuals in poverty in 2016 - with 367,000 more older Americans living in poverty. The median income of older persons in 2016 was \$31,618 for males and \$18,380 for females. In 2016, the poverty threshold was \$12,486 for an individual under age 65, and \$11,511 for an individual age 65 or older, while the official poverty rate for older adults was 9.3 percent (up from 8.8% in 2015). This is a troubling trend, as the national poverty rate declined by 0.8 percentage points to 12.7% for everyone else!

Research shows that currently 16% of adults over the age of 65 in the US face some level of food insecurity. Nearly 14% of New Jersey's 1.5 million senior citizens face hunger each year (1 in 6), and nearly 403,000 NJ seniors (26%) are living in or near poverty. In 2016, 80% of those we served were either below the federal poverty line, or vulnerable to it.

Since you cannot argue with the numbers, what does this mean for Meals on Wheels of Mercer County? We have seen the need for meal subsidies grow from 60% in 2014 to 86% currently in 2018. Given the fact that Meals on Wheels participants are far more vulnerable than their comparably

aged counterparts, coupled with the graying of America, this will only increase. The majority live alone, have limited to no mobility, suffer from multiple chronic conditions, are reliant on numerous daily medications, and are in desperate need of nutritious meals and companionship.

Older adults on a fixed income who may only receive a social security check and live below the poverty line, every day must make a terrible choice between their medications or a meal; their rent or a meal; feeding their pets, “the only other living thing in their home” as one of our participants stated, or feeding themselves. If they can afford to eat something, they often have to choose low-cost, nutrient-poor foods harmful to their health. Forgoing healthy food can eventually lead to malnutrition, institutionalization and/or death. The regular delivery of hot, healthy meals by a caring volunteer goes a long way to helping them age in place independently and with dignity, thus saving them, their families and our communities precious financial resources that would otherwise have to go toward a long-term facility.

Given this outlook, the need to enable our elders to remain at home becomes even more acute. About 52% of Americans turning 65 today will develop a disability serious enough to require long-term services and supports. The evidence has clearly shown the positive impact Meals on Wheels has on improving health outcomes and reducing healthcare costs. It works, and it saves money. MOW programs save millions of taxpayer dollars because we can care for an older adult – providing meals to improve health, socialization to reduce isolation, and safety checks to eliminate risks – all for an entire year for the cost of just one day in a hospital or 10 days in a nursing home. Based on an annual survey conducted by the Administration for Community Living, 83% of our elders say that receiving a meal makes them healthier, and 92% say that it enables them to remain at home.

Thanks to community support, Meals on Wheels of Mercer County is well positioned, and looks forward to the opportunity to serve many more Mercer County elders as they age and need our services.

This fiscal year,
MOWMC received:

\$59,358.40

in Corporate Grants

\$143,250.19

in Foundation Grants

\$ 10,697

because you

THE YEAR IN REVIEW

534
Participants
were served

- 57% lived alone
- 61% have been on program over 1 yr
- 64% were at high nutritional risk
- 76% were below the poverty line or at risk for poverty
- 88% were over age 60
- 100% received meals and face-to-face interactions

74,940
Daily Meals Served

1,007
Grocery Bags
